**JETT•ce**  
hand held computer

Looking for the latest in hand held computer technology for industrial and commercial use? Designed for one-handed operation, the JETT•ce features a powerful Microsoft® Windows® CE .NET 4.2 operating system, Intel XScale® Technology Processor, color sunlight readable display with touch screen technology, and a variety of interface capabilities. The JETT•ce is an ideal solution to meet the complex and varied requirements of a wide range of applications.

The standard 320x240 pixel QVGA-TFT color display is sunlight readable with an LED backlight for easy viewing in high or low light conditions. The touch screen gives you the ability to create GUI based applications—providing unlimited possibilities for user control.

The JETT•ce comes standard with 64MB of SDRAM and 64MB of built-in Compact Flash (approximately 32MB used for operating system), which is expandable to 2GB. For removable data storage or I/O cards, the JETT•ce is equipped with a Compact Flash (CF) slot.

Featuring a variety of interface options, the JETT•ce comes standard with one RS-232 serial port. For applications that require dual serial port capability, a second serial port configured as RS-232, RS-422 or RS-485 is available.

The JETT•ce comes standard as a battery powered unit with a rechargeable Nickel Metal Hydride (NiMH) battery pack, which is interchangeable with AA Alkaline batteries. A line powered unit is also available.

Two Technologies now provides integrated wireless options for the JETT•ce. You can choose between WLAN 802.11b (Wi-Fi), Bluetooth® Class 1 or Bluetooth Class 2 when ordering a unit.

Two Technologies offers applications development services to our GEM Partners. Please be sure to contact us for more information.

As with all Two Technologies’ products, the JETT•ce is specifically designed for industrial and commercial use. The case is molded from Xenoy®, one of the most durable, chemical-resistant materials available on the market today. Securely clamped into place, the keypad surface ensures excellent splash resistance and prevents curling or peeling of the keypad overlay.
